WHAT IS IN THE SET

WHAT CHILDREN LEARN

Language

Animal names and sounds, farm words, 'in the stable', 'behind the tree'. Talk that comes with the play.

Early maths

Count the animals in, count them out. Two in the stable, one in the field — how many altogether?

Sorting & matching

Big and small, four legs and two, eats grass or eats apples. Each animal to its home.

Understanding the world

Where milk and wool and apples come from, and who does the work.

Sequencing

Wake the animals, feed them, milk the cow, pick the apples, close the stable. A farm day has an order.

Care & responsibility

The animals depend on the farmer. Looking after something is a feeling children rehearse here.

ONE SET, FIVE YEARS OF PLAY

TRY THIS ON DAY ONE

Moo, Baa, Neigh

12–24 months · One animal at a time. Name it, make its sound, put it in the stable.

Tractor to the Tree

18 months – 3 years · Drive the tractor from the stable to the apple tree and back. Pick an apple on the way.

Who Lives Where?

2–4 years · Each animal to its home, each person to their job. Then sort them another way.
