

Rattles Set

Six rattles, six different things to do with two hands. Each one makes a sound only when the child makes it happen — the first lesson in doing something on purpose.

AGE
3 months +

CONTENTS
6 rattles

WHAT CHILDREN LEARN

 Fine motor Grasp, hold, pass hand to hand. Sliding abacus beads and turning the mouse's tail refine the pincer grip.	 Cause & effect Shake and it sounds; stop and it stops. The child learns that the noise is theirs to make.	 Language Loud and quiet, fast and slow, more and again — the words arrive with the action.
 Sensory discovery Beads that cascade, rings that spin, a ball that rolls away. Six textures, six sounds, six colours.	 Early maths Beads slide one at a time. Counting starts as a rhythm long before it becomes a number.	 Social skills Rolling the Roller Rattle to a friend and waiting for it back is the first turn a baby takes.

ONE SET, FIVE YEARS OF PLAY

3–6m Tracks the rattle, reaches, holds it briefly and mouths it	6–12m Shakes on purpose, passes hand to hand, rolls the ball and follows it	1–2y Slides beads one by one, copies a rhythm, chooses the loud one	2–3y Sorts by sound, plays shake-and-stop with a group, names each rattle

TRY THIS ON DAY ONE

 Reach and Hold 3–8 months · Hold one rattle just out of reach, shake it once, wait. Praise any reach.	 Shake, Stop, Shake 6–18 months · Shake together, stop together. Say "stop" — and wait for the child to stop too.	 Roll It Back 8 months – 2 years · Roll the Roller Rattle across the floor to a friend and wait for it to come back.
