Tool Box

Item number **76012**

A tool box for young engineers with fourteen pieces: screwdriver, spanner, long oval connectors, cross-head screws, bolts, nuts and gears. The child fixes nuts and bolts to the side panels, slides a nut and bolt along a connector, and joins the gears on the panel so they turn together. A sturdy handle carries everything, so the tools travel with the child.

KEY FEATURES

14 tool pieces

Screwdriver, spanner, connectors, screws, bolts, nuts and gears.

Side panel fixing

Nuts, bolts and gears connect to the box side panels.

Connecting gears

Gears link together on the panel and turn in a line.

Sturdy carry handle

A strong handle lets the child transport all the tools.

LEARNING & DEVELOPMENT

Fine motor skills

Threading nuts on bolts and turning the screwdriver train the fingers.

Problem solving

Working out which tool fits which fastener and how the gears join.

Hand-eye coordination

Lining up the spanner or screwdriver with each nut and screw.

Language development

Naming nuts, bolts, screws and tools as the child uses them.

PRODUCT INFORMATION

Specifications from the TOLO product database

Age	12 months +
Item number	76012
UPC / EAN	019287760125
Contents	Tool box with handle, 14 tool pieces including screwdriver, spanner, connectors, screws, nuts, bolts and gears

Packaging dimensions	20 × 16 × 16.5 cm
Product weight	0.49 kg
Master carton	12 pcs · 50.2 × 42 × 35.5 cm · 0.075 m ³ · 8.3 kg gross

Sits alongside the Funtime Fishing Set (76013) and Highchair Learning Centre (76111) in the Classic Activity Toys category.
