

CLASSIC · SHAPE SORTERS

Wobbly Shape Sorter

Item number 76031

A rocking shape sorter with six shapes, each containing a different rattle sound. Toddlers from twelve months post the shapes through the matching holes, then open the front door to empty the sorter and start again. Matching by shape and by colour, the rattling shapes and the gentle rocking motion combine sorting, sound and movement in one toy that grows with the child's ability.

KEY FEATURES

-  **Front door**
Opens for quick access to empty the sorter and closes again.
-  **Six rattling shapes**
Each shape has its own separate rattle sound.
-  **Shape and colour**
Shapes match their holes by shape and by colour.
-  **Rocking motion**
The sorter rocks gently as it is played with.

LEARNING & DEVELOPMENT

-  **Shape recognition**
Finding which shape fits which hole teaches toddlers to compare outlines.
-  **Colour recognition**
Adults can ask the child to find the shape that matches a colour.
-  **Problem solving**
Trying a shape in the wrong hole and correcting it builds trial-and-error thinking.
-  **Fine motor skills**
Turning and posting each shape, and opening the door, practise dexterity.
