Crazy Eyed Bird

Item number 76035

A bird character with eyes that can be moved into many different positions. Babies from three months reach out to grab him, click his head and feet, squeak his wings and shake his rattling body. He is easy to grip, and his pliable tail is designed for teething. Later, his funny expressions and peek-a-boo games give parents and babies plenty to talk and laugh about.

KEY FEATURES

-  **Move-able eyes**
The eyes can be positioned in many different ways.
-  **Clicking head and feet**
Head and feet turn with a click.
-  **Rattle and squeak**
Rattling body and squeaking wings.
-  **Teething tail**
Easy to grip, with a pliable tail designed for teething.

LEARNING & DEVELOPMENT

-  **Sensory exploration**
Clicks, rattles, squeaks, moving eyes and a tail to mouth engage several senses.
-  **Fine motor skills**
Gripping, turning the head and feet and repositioning the eyes exercise small hands.
-  **Language development**
Talking about his colour, features and funny expressions sets the stage for conversation.
-  **Social interaction**
Peek-a-boo and bird sounds turn the toy into a shared game with an adult.
