# Stacking Activity Clown

Item number **76124**

The Stacking Activity Clown is six toys in one. Each piece works on its own: the base wobbles and rattles, the hat is a whistle, and the other pieces spin, rattle, squeak, roll or show the baby their own reflection. Stacked biggest-first they build a clown that wobbles when pushed. Babies grasp and explore each part; toddlers learn the order and rebuild him again and again.

## KEY FEATURES

-  **Six toys in one**  
Every piece can be played with separately.
-  **Wobbling, rattling base**  
Push the finished clown and he rocks and rattles.
-  **Whistle hat**  
The hat doubles as a whistle to blow.
-  **Mirrored piece**  
One piece shows the baby their own reflection.

## LEARNING & DEVELOPMENT

-  **Fine motor skills**  
Grasping, placing and fitting the pieces together builds hand control.
-  **Problem solving**  
Toddlers work out that the biggest piece must go at the bottom.
-  **Cause and effect**  
Spinning, squeaking, rattling and knocking the clown over all give a response.
-  **Language development**  
Naming the clown's nose, eyes and mouth leads to naming the child's own.
